Bergfreundin Marianne Huckberry If there is one shirt that can easily level-up each person's style and flatter his body, it's a button down. While a versatile collared shirt is one of the main wardrobe essentials that every guy should own, most are less-than-excited to add button-down shirts to their wardrobe, and we get it. When it comes to sharp style, dressing is usually considered less comfortable than your go-to hoodie or t-shirt. But thanks to stellar offerings from some of your favorite brands, the down button is more convenient than ever with fabric innovations that will help you move with ease throughout a busy day. Dress up these flattering shirts with tailored pants or dress them down with your favorite pair of distressed jeans, the best button-down shirts are total game changers for the ultimate style flex with timeless appeal. What to look for when shopping for button-down shirtsIf you're confused about the difference between a button-down shirt and a button-up shirt, the conditions have become interchangeable (and it's not worth worrying about). The only real difference between the two shirts is that the pressed button refers to the other buttons that hold your collar flaps – it's as simple as that. What you should consider when shopping for a large button-down shirt is fit and fabric. While some men may feel comfortable with a relaxed-fit shirt, it is best to choose a slim-fit that flatters the torso but won't cling to your body. Even if you're dropped from a fitness game this summer, a slim-fit shirt will hug your arms and broad shoulders, but won't show off any imperfections in your middle section. Perhaps the first time wearing a standard Oxford shirt wasn't the most comfortable experience, but thanks to advances in fabric technology, there's a wide range of button-downs with great stretch and moisture-wicking capabilities for added comfort. Are you worried that you'll get pregnant after an active day in the button? Fortunately, some of the best shirts are also wrinkle resistant, so you can look great from office hours to happy hour. Whether you're looking for a shirt that's light and seeable, or you're looking for a heavyweight option to keep you warm when the fall chill hits, there are plenty of button-down options that are just as stylish and comfortable. Now that you know what to look for, check out the 10 best button-down shirts that you'll make every guy look like a total boss.
